

How can you provide even better hotel housekeeping services to your customers?

The hotel housekeeper is the guardian of a hotel's brand. Their job is vital to ensure that guests have an enjoyable stay, and that standards of hygiene are upheld.

The main challenges for the housekeeper often include:

- The need to reduce cleaning time.
- Maintaining clean corridors while performing normal housekeeping duties.
- The lack of storage space available.
- Providing a nominal level of security and locking to prevent theft from rooms.

Rubbermaid offers a wide range of ergonomic solutions that help housekeepers meet every challenge in:

- The High Capacity Cart is designed to service up to 16 rooms.
- For smaller hotels and limited storage, the Compact Folding Housekeeping Cart combines the best in functionality with a significant reduction in size when folded.
- Rubbermaid provides a selection of different designs and finishes to suit each hotel interior.
- To prevent theft, all carts are supplied with locking cupboard spaces, while the majority of models feature locking security hoods.

Did you know?

Not every hotel has wide, spacious corridors and large areas of room space to manoeuvre a cleaning cart. That is why Rubbermaid has designed the Compact Folding Housekeeping Cart to fold down to nearly 30% less than its original size.
